Nature and nature are the concepts because nature is the study of how life acts and interacts within the circle of existence. When we take the time to admire the beauty of the world around us, we are able to see parallels within our own lives. One who is attuned with nature is attuned with the practice of living. All of nature is just as to our personal lives. It is important to spend time in nature because in this way we can become attuned to its wisdom. On the other hand, whenever the beauty of nature and spend our time in an urban jungle our stress levels go up and we begin to feel as if we are made out of the concrete that we see around us.

and a dream with Africa. Gribha made it beautiful sparkling dress in the middle of the night. The greatest moment I can't say... Maybe what all that is showing at you. Actually so fancy. Or when the whole team thought a date was coming after all. No. It was quite simple. We loved that moment when the musicians joined me in front of the fountain. We had so much fun. Felt like a princess in her palace. Maybe hotel. Great sculptures. Details are lovely. There is splendor and luxury. I had the greatest time. The greatest.

I took a trip to heaven
But I can't see what I
I thought I knew what it was like
It wasn't. It was love so close
No time to say anything started to see
Just how beautiful heaven can be.

I want to see everything of what
I could see. I want to see
I want to see the real thing
I want to see that a love
and with the angels
There are no words to describe the beauty of this thing.

Un voyage au coeur de la Provence

A journey to the heart of Provence

Jeanne en Provence vous invite à **un voyage au coeur de la Provence** pour vous faire découvrir ses senteurs, sa nature et son art de vivre...

Jeanne en Provence s'inspire de la **nature provençale**, ses collines parfumées, ses champs fleuris et ses vergers, pour vous offrir des **produits authentiques et naturels**.

Le nom de la marque évoque la Comtesse Jeanne de Provence du XIV^{ème} siècle. Cette reine de légende avait offert à la ville de Saint-Paul de Vence l'usage de ses sources qui étaient situées sur ses terres. Aujourd'hui encore ses sources fournissent l'eau aux nombreuses fontaines du village.

Jeanne en Provence takes you on a journey to the heart of Provence for you to discover its scents, nature and way of life...

Jeanne en Provence draws inspiration from provençal nature, its scented hills, flowered fields and orchards, to offer you authentic and natural products.

The brand name evokes the Countess Jeanne of Provence from the 14th century. This legendary Queen had offered to the city of Saint-Paul de Vence the use of her water sources that were located on her land. Even today her sources still provide water to the fountains of the village.
